IAWA MISSION STATEMENT

Founded in 1988, the International Aviation Womens Association (IAWA) brings together women of achievement in the aviation industry and promotes their advancement internationally through the establishment of a worldwide network of aviation professional contacts. IAWA is an international organization for women who hold senior positions in the aviation and aerospace industry including airline, airport, finance, insurance, law, manufacturing, operations, suppliers and government.

As the industry adjusts to worldwide economic and political change, women are assuming greater and more visible roles. Through annual global conferences, IAWA provides a forum to share views on matters of importance to the industry, as well as to women generally. Although women generally should have five years management-level experience in the industry, or comparable experience, to join IAWA, our Annual Conference is open to attendance by non-members. Take advantage of this opportunity to meet and network with some truly extraordinary people who share the common interests of promoting aviation and advancing women in the industry.
